Print fast, don't wait

However demanding your professional printing needs, a Samsung Xpress M2825DW Series gives you great results – fast. Save time by printing even complex documents at speeds of up to 28 pages per minute (PPM) thanks to a powerful 600 MHz processor and 128 MB of memory. With the Cortex-A5 Core, it's up to 25.6% faster than earlier models, making it one of the fastest printers in its class. That means it helps you to work faster, be more flexible and more productive.

Give a good impression with great print quality

Now impressive professional-quality prints are possible for everyone. Your Samsung Xpress M2825DW Series delivers sharp, clear prints that are sure to make a big impact. Thanks to its 4800 x 600 dpi effective resolution and Rendering Engine for Clean Page (ReCP) technology, you can enjoy higher performance and quality without the need for a bulky larger printer. What's more, quality-boosting features give you more detail, smoother images and clearer text.

High-resolution printing

Even complex images and small text are delivered in fine, detailed prints, thanks to high-resolution print quality up to 4800 x 600 dpi effective.
